SUMMARY

Fullstack developer (4+ years) shipping production mobile and web systems for Indonesian and Australian SMEs: a 3-app on-demand service platform, a multi-tenant POS SaaS, an LLM-integrated contract management system, and 6+ live client websites. Founder, PT Tuntas Kilat Group.

EXPERIENCE

- Founder & Lead Developer — PT Tuntas Kilat Group, Sampit** Jul 2025 – Present
 - Built and launched an on-demand cleaning services platform: 3 Flutter apps (Customer, Crew, Admin) on a shared Firebase backend with automated crew-assignment matching.
 - Designed an IoT irrigation system automating watering and environmental control for a 2,000-tree commercial palm oil nursery.
 - Run end-to-end operations: client contracts, invoicing, and field-service scheduling.
- Software Developer (part-time) — PT Permata Energi Borneo, Sampit** May 2024 – Present
 - Developed [Kontrack](#), a multi-project contract and finance management system for contractors, replacing spreadsheet workflows.
 - Integrated Google Gemini into the financial dashboard to automate contract data extraction and cut manual data entry.
- Fullstack Engineer (contract) — PT Manob Nusantara Berkarya, Sampit** Jan 2024 – Present
 - Built a Next.js e-commerce storefront with 3D/video product rendering, custom CMS, and payment-gateway integration (Mebel Fur-el).
 - Developed Tekka Cafe OS, a multi-tenant POS SaaS with per-tenant data isolation for restaurant clients.
 - Shipped 6+ live client platforms, incl. [Orah Cafe \(Perth, AU\)](#), [Query Roastery](#), [Isu Indonesia](#) news portal, [Manob Production](#), and cafe self-order kiosks.
- Fullstack Engineer — Cakrawala Akademi (EdTech, IWDM national grant)** Aug 2022 – Mar 2023
 - Built the platform's Django backend and web frontend for a grant-funded student entrepreneurship program.

EDUCATION & PROGRAMS

- B.S. Information Systems — Universitas Darwan Ali** Expected Jul 2026
- Bangkit Academy (Google, GoTo Bangkit Academy by Google, GoTo & Traveloka — Capstone Team C23-PS321 (Kotlin/Android)amp; Traveloka) — Capstone C23-PS321, Kotlin/Android** 2023
- Core Team — Google Developer Student Clubs, Universitas Esa Unggul** 2022 – 2023
- Prior coursework: Informatics — Universitas Esa Unggul** 2020 – 2022
